KG CONSULTING

Quick User Instructions

BG Business Start

The guide outlines your options, registration steps, deadlines and fees. KG Consulting can help assess your circumstances and prepare the documents.

1 Open the file Save the HTML file to your device and open it in a browser such as Edge, Chrome or Firefox. The main features need no installation or internet connection.

2 Choose an option In “Choose an option”, select freelance practice, ET, EOOD or OOD. For a company, also choose self-insurance or a paid management contract. “Help me choose” offers a short optional guide.

3 Follow the steps In “Registration steps”, choose online or paper filing. Open the steps for documents, deadlines and costs, read the timing clarifications, and tick off completed actions.

4 Complete the final checks In “Am I ready to start”, answer the VAT and payment questions and review permits. Results are indicative and require an individual assessment where relevant.

5 Save your progress The browser attempts to retain selections and checkmarks locally. Use “Save progress” for a JSON backup and “Load progress” to restore it, including between language versions. Your answers are not sent anywhere.

6 Print your plan “Print / PDF” prepares the selected route and final checks. You can save it as PDF in the print dialog. “Reset” clears your current selections and checkmarks.

Links to authorities and KG Consulting need internet. Use the current edition from the website and check the rules before filing. Registry fees, capital and provider charges are shown separately. Both language editions describe Bulgarian procedures.
